2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Mission Statement

Pacific School's mission is to prepare children for life through experiential learning that addresses the needs of the whole child. We create a safe and secure school environment that promotes social and academic growth and develops an enthusiasm for learning, a positive self-image, and cross-cultural understanding.

School Profile

Pacific School offers children, parents, and staff the unique opportunity to work together in a small, harmonious environment, giving individual attention and individualized instruction. The School Plan focuses on an integrated curriculum that allows learning to take on greater meaning and connection to the world and to students' lives. The staff intends to provide a school environment that nourishes each child's emotional, physical, and social development while stimulating curiosity and creativity. The staff endeavors to generate a love of learning, which will sustain children as they grow and develop. Classrooms and materials are well cared for, creating beautiful, stimulating environments. Pride in the school is demonstrated in the care that the children show the materials, buildings, and garden.

During the 2021-22 school year, the school served about 170 students in kindergarten through sixth-grade, spread across three programs: Five Day, Independent Studies, and Home Studies.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Pacific School District endeavors to provide sufficient and current textbooks and materials to support instructional programs. Pacific School District held a Public Hearing on September 18, 2018, and determined that the school has sufficient and good quality textbooks and instructional materials pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are given their own standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. All textbooks and instructional materials used within the District are aligned with the California State Content Standards and Frameworks. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

The physical environment of Pacific School is continually maintained to the best of our ability. Classrooms and grounds are kept free of litter and graffiti. Students are expected to participate in daily cleanup. The playground, classrooms, fire extinguishers, and emergency exit lights are formally inspected at least monthly. Repairs to damage are made as quickly as possible. The principal conducts at least two comprehensive inspections a year, in the fall and spring, using the inspection checklist from the State Office of Public School Construction. The inspection covers the school site, including office, classrooms, kitchen, and playground safety.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Pacific Elementary School values parents as an integral part of the educational process. To that end, the following is a summary of our three major areas for parental involvement: (1) volunteering in the classroom, chaperoning on field trips and during events; (2) supporting the Pacific School Foundation/Pacific School Parents' Club; (3) and serving in governance capacities such as the School Site Council or the Board of Trustees. Subject to the vicissitudes of the pandemic, the following is usually the case.

Parents are vitally important to Pacific School and the school actively encourages their participation. Parents overwhelmingly say they feel welcome and included when surveyed each year. Parents contact their child's teacher if they are interested in volunteering in the classroom on a regular basis. Classroom volunteer needs are discussed each year at Back-to-School Night. In our Independent Studies Program, which is a hybrid of homeschooling and a traditional school program, parents are the teachers of their own and each other's children. Field trips are frequent and parents are crucial to their smooth functioning. Some field trips, for the older students, involve multi-day excursions and depend upon actively involved parents to make them possible.

The Pacific School Foundation (PSF)/Pacific School Parents' Club (PSPC) is a critical volunteer organization that meets at least monthly. PSF/PSPC is responsible for coordinating several large fundraisers, managing donations, and organizing family/community events such as Potato Night and Bingo Night. PSF/PSPC is always eager to recruit new members to maintain and invigorate a culture of active support.

The School Site Council (SSC) is made up of five parent/community members and five staff members. The Site Council is responsible for revising and recommending numerous important plans that provide direction for the school in key areas. The SSC reviews the Local Control Accountability Plan (LCAP), the Comprehensive School Safety Plan, the Wellness Plan, and the Technology Plan. They also act as an advisory committee to the school board. The Site Council is also responsible for surveying parents to determine concerns and program needs. In this capacity, parent members serve as a link between parents, staff, and the governing board. When there is an empty seat available on the Site Council, all parents are encouraged

2022-23 Opportunities for Parental Involvement

to participate in the election of a new member. All meetings are open to the public. The School Board is composed of three elected members. Their job is to set policy for the school district and to direct the Superintendent/Principal in implementing those policies.

Parents who have special skills are encouraged to share their expertise with the children as demonstrations and lessons during school hours. Also, parents sometimes seek the opportunity to give classes to students after school. The school is happy to provide support for these classes when scheduling and spaces are available. In the past, parents have given lessons in art, dance, sewing, knitting, Spanish, music, and drama. Parents are also actively involved in helping to meet needs in the school library, Life Lab garden, landscaping, and maintenance. Indeed, our school community would be notably deficient without their continued generosity.

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

Pacific School District has developed a comprehensive School Safety Plan that addresses the emotional safety as well as the physical safety of all members of the school community. The School Safety Plan was developed by the Safety Committee in conjunction with the Pacific School Site Council, which is made up of parents and staff members. The Plan is reviewed and revised annually by both the Site Council and the School Board. It is then submitted to the County Office of Education. The School Safety Plan is available for viewing in the school's office.

The following is the table of contents for the School Safety Plan:

Professional Development

Pacific School professional development activities are usually designed by the Superintendent, in consultation with staff, and in conjunction with the other three single-school districts in the county, and sometimes in conjunction with the County Office of Education or other professional organizations, such as Bay Sci, to be pertinent to the needs of staff in their quest to enhance student learning. A variety of staff development opportunities are provided to increase interest and expertise, acquire new ideas and materials, and develop teaching, organization, and classroom management skills.

Pacific School's faculty meets throughout the year, in various settings, to both plan and deliver the training. First, the needs are identified throughout the year. Second, the teachers and the principal meet at least monthly to discuss needs, review research, and/or share best practices. Third, the subcommittees of teachers meet to work on various aspects of improving our practice. The work of these groups is then brought to the entire faculty for implementation. Assessments of student progress and staff strengths and competencies are considered when professional development is planned.

Recommendations from the School Board and the School Site Council are considered when planning activities. Staff members are encouraged to participate in professional development programs offered by the Santa Cruz County Office of Education. Special Education staff and aides have taken advantage of several workshops offered through the county SELPA. Pacific School staff members collaborate with the other three small school districts in the county for at least one professional development day per year. Whenever possible, the principal takes part in professional development programs along with staff members.

Teachers may request release time to attend special workshops and classes, and time is allowed at staff meetings and in-service days for staff members to share information they have gained that will benefit other staff members. Mentor teachers provide expertise in areas of strength, and the school's Technology Coordinator provides technical assistance and staff technology training on a frequent basis.

Since the 2011-12 school year, one or two professional development days are scheduled in coordination with the three other small school districts to collaborate and share best practices. The staff continues to assess needs and either take advantage of minimum days every Wednesday or take individual staff development opportunities to attend workshops. The staff has focused on math, writing, science (including the Life Lab garden curriculum), English Language Development, and differentiating instruction to meet the needs of gifted students. Other staff development topics include Step Up To Writing, the Common Core Standards implementation, Environmental Education, Next Generation Science Standards, San Francisco Math curriculum, and the Visual And Performing Arts (VAPA) standards.

During the 2018-19 and 2019-20 school years, Pacific contracted with a private consultant (Rebecca Setziol) to provide professional development in mathematics instruction. Specifically, Ms. Setziol coached teachers in Teaching Through Problem-Solving, using a gradual release of responsibility model. In 2020-21, teachers met with staff from the County Office of Education for professional development in mathematics instruction in the distance learning environment. During 2021-22, the focus is on Social Emotional Academic Learning (SEAD), working with consultants Wendy Baron and Suzanne Denham. We also received training from Kevin Drinkard, from the COE, in math instruction, and Amity Sandage, also from the COE, in Environmental Literacy.

A restructured weekly schedule with four longer days and a shorter day on Wednesdays provides time for weekly meetings and collaboration, as well as the development of curriculum and materials in each classroom.

The school participates in the state-sponsored Beginning Teachers Support and Assessment Program (BTSA), as appropriate. The goals of the BTSA program are to help new teachers succeed, foster increased retention of quality teachers within the teaching profession, and improve instruction for students.
