- Determine the TOTAL number of individuals living in your household (in the far left column below) supported by the Total Household Income you are reporting.
- Determine the TOTAL household income below that reflects that income.

Example: if your household size is "4" (e.g., two adults and two children) and your total household income is \$28,000 a year (e.g., income of both adults), then your income falls within Category 1 because your total household income of \$28,000 a year is less than \$30,615.
