IPM Statement

It is the goal of the Pacific Elementary School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown to be ineffective.

IPM Team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements include:

Name & Title	Role in IPM Program
Eric Gross, Superintendent/Principal	Policy
Emelia Miguel, Food Services Director	Purchasing & Food Safety
Dolores Perez de Diaz, Custodian	Custodial

Pest Management Contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business' name: Terra X Pest Services
- Before entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest Identification, Monitoring, & Inspection

Pest identification is done by: District Staff and Terra X Pest Services

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District Staff and Terra X Pest Services, and results are communicated to the IPM Coordinator. Specific information about monitoring and

inspecting for pests, such as locations, times, or techniques, is available from the IPM Coordinator.

Pests and Non-Chemical Management Practices

Chemical Pest Management Practices

Pacific Elementary School District expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by district staff or licensed pest control businesses):
