

Community Resources During School Closures

The Santa Cruz County Office of Education (SCCOE) recognizes the impact school closures will have on families. Please work with your child's district regarding academic instruction practices as well as services to families receiving free and reduced lunch. We understand that many families will need to seek social services in our community amongst this public health crisis. This is a dynamic situation where information and circumstances can evolve quickly.

❖ Community Information Database:

- Santa Cruz County Community Information Database <https://www.santacruzpl.org/cid/> is a directory of locally curated information working to connect Santa Cruz County residents with resources, nonprofit organizations, and community partners offering unique services.
